IT IS ABSOLUTELY NECESSARY TO **HEAVILY** STARCH AND PRESS YOUR FABRIC BEFORE CLASS

PRESS with an up and down motion. You are stabilizing the fabric against the stretching that occurs when cutting and sewing bias/curved edges. This is an important part of the process to achieve successful curved seams. When I use spray starch, I spray and PRESS the fabric 3-4 times. If using yardage, I mix liquid starch 1:1 with water in a plastic tub and dip the fabric in the starch+water mixture until it is wet. Squeeze out the excess – wringing out the fabric can leave heavy creases that are difficult to press out -- and toss it in the dryer. Then PRESS.

OTHER SUPPLIES

- 3" + 6" On The Edge template set - available at stripsandcurves.com and in class for \$29.95+tax
- Sewing machine in good working order – don't forget your manual, electric cord, and pedal!
- If you have a knee lift bring it - it's very helpful

- 1/4" foot is a must (or your favorite way to assure 1/4" seams)
- Basic sewing supplies (scissors, seam ripper, pins, extra machine needles, etc.)
- Fine pins
- Neutral thread and several that coordinate with your fabric choices
- Extra bobbin(s)
- 28mm rotary cutter with new blade – the smaller size is necessary to cut the small curves
- Medium size cutting mat. If you have a rotating mat, bring it! They make cutting with templates much easier.
- 6"x12" and 6"x18" rulers
- Iron and ironing surface if there is sufficient space and workshop sponsor permits individual irons
- Foam core or flannel covered board to use as a design wall
- Blue painter's tape

I accept cash, checks, Visa, MasterCard and Discover.

If you have questions, please don't hesitate to call me. I love chatting with quilters!
